JOURNAL OF ELECTRICAL AND ELECTRONIC ENGINEERING

Guidelines to the Authors

The Southeast University Journal of Electrical and Electronic Engineering (SEUJEEE), a half-yearly journal published by the Department of Electrical and Electronic Engineering (EEE) of Southeast University, Dhaka, Bangladesh welcomes submissions of research articles related to the diversified fields of Electrical and Electronic Engineering, Electronics and Telecommunication Engineering, Information and Communication Engineering, and similarly other related fields from home and abroad. The format of articles for publication must conform to the guidelines set in the camera-ready manuscript preparation file mostly following the IEEE transaction format of EDS/EDL. However, there are some general guidelines of SEUJEEE as follows:

1. The paper must be based on original research and be unpublished and must not be submitted in whole or in part elsewhere. All the papers will undergo the double-blind peer-review process.
2. The final copy of the manuscripts should be submitted through email both in .pdf and .docx formats typed in single-spaced on letter-sized paper having margins of 1.0 inch on left, right, top and bottom. Font name: Times New Roman, font-size: 10 in the main body, 9 in the abstract, keywords, figure caption, table title, etc., 8 in the table data and texts, reference list, etc. The article should be in two columns format with a 0.2-inch gap in between the two columns.
3. The length of the complete article should be a maximum of 20 typed pages. Each article should include an abstract from 250 to 300 words, keywords not more than six, introduction, other necessary sections and sub-sections, results and discussions, conclusions, appendix, acknowledgment, reference list, etc.
4. The reference list should follow the IEEE transaction format of EDS/EDL at the end of the paper. For details of listing the references, please go through the camera-ready file of this journal.
5. References must be cited in the text inserting reference number in the square bracket.
6. In the manuscript, the abstract should not contain any citation, figure, equation, etc.
7. On the first page of the manuscript, there should be the title of the paper (font-size: 24, bold in Small Caps with a capitalization of the first letter of the major words), name(s) of the author(s) (font-size: 11), and then abstract (font-size: 9), keywords (font-size: 9), introduction section and next section(s) (font-size: 10). Institutional affiliation(s) and email address(es) of the author(s) should be written at the footer of the first page with font size equals 8.
8. The copyright of the paper is reserved by the Department of Electrical and Electronic Engineering (EEE) of Southeast University, Dhaka, Bangladesh once it is accepted for publication. So, all the authors must sign the e-copyright transfer and consent form and send it through email at seujeee@seu.edu.bd.
9. All correspondence should be made by any one of the authors designated in the paper as the corresponding author, but an email will be sent to all the co-author(s) from the Editor's office.
10. An acceptance letter may be issued after receiving comments from the reviewer and subject to the submission of the final camera-ready paper with the copyright transfer form.
11. For further details, please visit our website at www.seu.edu.bd/seujeee or contact us directly over the cell phone or via email without any hesitation.

**** The Chief-Editor and the Editorial Board do not bear any responsibility for the views expressed in the papers by the contributors.***

JOURNAL OF ELECTRICAL AND ELECTRONIC ENGINEERING

SCOPES OF SEUJEE

The subject or research areas to be considered for publication in this journal include, but are not limited to the following diversified fields of Electrical and Electronic Engineering:

- Analog and Integrated Circuits
- Antenna and Wave Propagation
- Application-Specific Integrated Circuits (ASIC)
- Artificial Intelligent and Expert System
- Biomedical Electronics and Applications
- Biomedical Signal and Image Analysis
- Circuit Analysis and Applications
- Communication Network and Systems
- Complex Adaptive Systems
- Control Systems Engineering
- Cryogenics and Cryoelectronics
- Electric and Electronic Measurement Systems
- Electric Energy Storage
- Electric Traction and Vehicle
- Electrical Drives and Electromechanical Systems
- Electrical Engineering Materials
- Electromagnetic Compatibility
- Electromagnetic Field Analysis and Applications
- Electron Beam Technologies
- Electronic Communications
- Electronic Component
- Electronic Computer
- Electronic Design Automation
- Electronic Materials
- Electronic Stability Control
- Electronic Storage
- High Voltage Apparatuses
- High Voltage Insulation Technologies
- Hybrid and Switching Control
- Information Theory and Coding
- Instrumentation and Control
- Intelligent Systems
- LASERs and Electro-optics
- Lightning Detection and Protection
- Linear and Non-linear Circuits and Systems
- Mechatronics
- MEMS and NEMS
- Microelectronics
- Microwave Engineering and RFID
- Multimedia Systems and Applications
- Nanoelectronics
- Power Engineering
- Power Quality
- Power System Analysis
- Power Systems Stability and Control
- Renewable Energy Technologies
- Robotics and Automation
- Semiconductor Device Fabrication
- Semiconductor Device Modeling and Simulation
- Signal and Image Processing
- Solar Photovoltaic Design
- Speech Processing
- System-on-a-Chip (SoC)
- Transmission and Distribution of Electrical Power
- Visual Signal Processing and Communications
- Wireless and Mobile Communication
- Wireless Mesh Networks
- Wireless Sensor Networks
